# Executive Summary

- **Real GDP grew by 1.9% in 2024 and is projected to grow 2.0% yearly** on average between 2025-27<sup>(1)</sup>, above most European peers
- With a **diversified and open Economy**, the main engines of growth are Investment at 3.4%<sup>(1)</sup>, Private Consumption at 2.1%<sup>(1)</sup> and also Exports at 3.2%<sup>(1)</sup>
- Manufacturing (mechanical & electronics, chemicals & plastics, automotive & mobility, textiles & clothing and renewables) but also Travel and tourism fuel the exports sector (almost 50% of GDP; 60/40 between goods and services), contributing to a **growing current and capital account surplus** (3.7%<sup>(1)</sup> of GDP)
- **Public accounts are in surplus** (1.2% of GDP in 2023 and 0.4% forecast in 2024) and are expected to remain so in the coming years, with tax revenues growth accommodating the adoption of policy measures to combat the rising cost of living and increase the country's competitiveness
- **Strong primary balances** combined with economic growth have resulted in a sharp decline of public debt (95.0% of GDP in 2024, -39.1 pp vis-à-vis the 2020 peak) and will continue to bring debt down by 3 to 4 pp yearly, as part of a process of deleveraging in the entire Economy
- **Banking sector profitability** increased considerably, with improvement in asset quality and rise of net interest margins
- **Prudent public debt management** has kept risks at bay, with a lower refinancing risk (around 40% for 5 years) and a safe weighted average maturity (above 7 years)
- Despite the increase in net cash requirements of the State, **net issuance of PGB remains stable around EUR 8 billion in 2025**
- **Upgrading trend in credit ratings**, currently at A3 | Stable by Moody's, A | Positive by S&P, A- | Positive by Fitch, A (high) | Stable by DBRS, and A | Stable by Scope, reflective of a solid and improving economic outlook

## Open and diversified Economy within Euro Area

✓ Strong growth fundamentals and diversified economic activity<sup>1</sup>

GVA decomposition by sector of activity, 2024, current prices, % of total

- ✓ Robust and diversified exports (both in terms of sectors and markets; accounting for near 50% of GDP)
- ✓ Solid labor market - low unemployment and high level of employment
- ✓ Strong institutions and governance
- ✓ One of the safest countries in the world
- ✓ One of first countries to announce the commitment to be carbon neutral by 2050 (at the COP in 2016), with a plan to reduce 55% of GHG emissions by 2030 (vs 2005) and for renewables to cover 80% of electricity production by 2026

---

# Portugal's GDP faster QoQ growth in Q4, among the EA's economies, leads to a strong carry-over effect into 2025

Portugal's real GDP grew by 1.9% in 2024, above EA growth for the third consecutive year

[Real GDP, YoY, %] [[Eurostat](#), [INE](#)]

Portugal's GDP increased 1.5% QoQ and 2.8% YoY in 2024Q4

[Real GDP, YoY, %] [[Eurostat](#), [Statistics Portugal](#)]

# Portuguese economy continues to grow at solid levels

## Real GDP increased by 1.9% in 2024, after 2.6% in 2023

[Real GDP, YoY, %, Contributions, pp] [\[Statistics Portugal\]](#)

## In 2024, the contribution of private consumption to real GDP was 2.0pp

[Real GDP, 2024, pp] [\[Statistics Portugal\]](#)

## In 2024Q4, real GDP increased by 2.8% YoY

[Real GDP, YoY, %, Contributions, pp] [\[Statistics Portugal\]](#)

# Exports show resilience, and investment shows some volatility

## Exports have shown signs of revival in the last few quarters

[Exports, YoY, %, Contributions, pp] [\[Statistics Portugal\]](#)

## Investment growth slowed in the last quarter of 2024

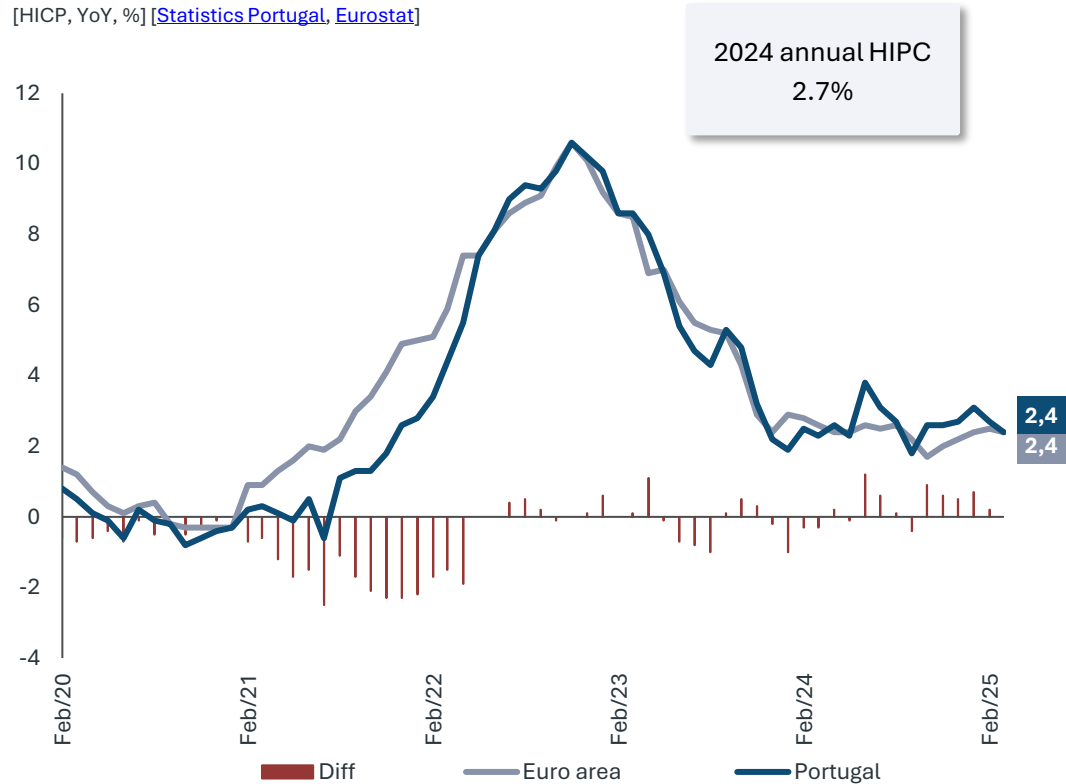

[Gross fixed capital formation, YoY, %, Contributions, pp] [\[Statistics Portugal\]](#)

# Portugal's inflation largely correlated with Euro Area

### Downward trend in inflation, but with some bumps

### Services continue to exert upward pressure on inflation

## Projections point to moderate growth, low unemployment and declining inflation

### Moderate growth in 2024-26 with inflation converging to neutral

# Portuguese exports have proven to be competitive, diversified and dynamic

## Advanced engineering (electrical & machinery) and Automotive & Mobility are two of the main exporting sectors

[Main exports by product groups as % of total exports 2024; Compound annual growth rate 2019-2024, %] [Statistics Portugal, Banco de Portugal]

[<sup>(1)</sup> Others include for example: Agricultural products; Cork; Miscellaneous manufactured articles; Optical and precision instruments]

- ✓ Chemicals (inc. Pharma) showing stronger growth (8.8% cagr) and already an exports' weight of 4.4%
- ✓ Electrical and mechanical machinery has heavier weight in total exports (8.9%) and still is demonstrating steady growth (7.4% cagr)
- ✓ Vehicles and parts & aircraft has significant weight of total exports (7.6%) but has presented slow growth (0.6% between 2019 and 2024) due to the combined effects of the Pandemic, supply chain disruptions, rising production costs and green transition

# Automotive and Mobility sector is an important industrial value chain in Portugal

## 80% of production in the automotive industry in Portugal is exported

[AICEP, [Automotive and Mobility Industry Report](#) 2024]

### Automotive and mobility industry in figures | 2021

**58.189**  
Employees

▲ 4,5%<sup>1</sup> (2015-2021)

**€12,4B**  
Turnover

▲ 6,5%<sup>1</sup> (2015-2021)

**€2,2B**  
Gross Value Added

▲ 5,7%<sup>1</sup> (2015-2021)

#### Main export indicators<sup>1</sup>

**€14,8B**

Exports of automotive<sup>1</sup>  
and mobility products,  
2022

**▲ 3,8%**

CAGR<sup>2</sup> 2018-22 of  
automotive and mobility  
industry exports

**19%**

Weight of automotive and  
mobility exports in total  
Portuguese exports of  
goods, 2022

[<sup>1</sup> Compound annual growth rate]

- ✓ Automotive & Mobility turnover accounts for 12.1% of the manufacturing industry in Portugal
- ✓ 95% of the vehicles assembled in Europe have components produced in Portugal
- ✓ In 2021, Portugal was the main producer of bicycles in Europe
- ✓ The growing importance of the two-wheeler industry is observed in the increase of its turnover (27%) and GVA (16%) between 2015 and 2021
- ✓ Sector exported €14.8bn of products in 2022, with growth rate of 3.8% since 2019 and a weight of 19% in total exports

## Internationally renowned Renewable Energy sector

Green location, openness to innovation, safe country, highly skilled workforce, strong R&D in Renewables and energy market connectivity are some FDI attractiveness factors in sector

[AICEP, [Renewable Energy Report](#) 2024]

[<sup>2</sup> Compound annual growth rate]

- ✓ Portugal is at the EU forefront in development of green energy sources. Fourth largest share of Renewables in electricity production within the EU (61% in 2023)
- ✓ Renewable Energy sector accounted for 76.897 <sup>(1)</sup> direct and indirect jobs in 2022, demonstrating its importance in developing complementary industries (steel, metal etc.)
- ✓ Portugal expects €60bn of investment in new Renewables projects until 2030 <sup>(2)</sup>
- ✓ Important role in the production of components for renewables, having attracted relevant international players in the sector
- ✓ Europe's largest solar farm being built, covering over 100 acres and ranking #5 in the World

[(1) Estimate by the Portuguese Renewable Energy Association (APREN)]

[(2) According to the Portuguese Government]

# Leading in the incorporation of Renewables in electricity production

## Recognition from investment in emerging Energy sources and innovative engineering solutions

[AICEP, [Renewable Energy Report](#) 2024]

### Portugal's Renewables main achievements

**32%**

Share of Renewables on gross final energy consumption (DGEG), 2022

**▲ 12,3%**

Reduction of the Portuguese energy dependency (DGEG), 2011-21.

**61%**

Share of electricity from renewable sources in total annual production (DGEG), 2022

**22<sup>nd</sup>**

Ranking on role to Planet & Climate (out of 169 countries) (Good Country Index) | 2022

Production of electricity by energy source, in Portugal (DGEG) | 2022

- ✓ #4/EU27 share of energy from renewable sources in gross electricity consumption (2022)
- ✓ #6/EU27 share of energy from renewable sources in gross final energy consumption (2022)
- ✓ #13/67 Climate change performing Index 2024
- ✓ #16/167 Overall sustainability performance (SDG achievement – 2024 SDR)

- ✓ First floating offshore wind farm in Europe (project WindFloat Atlantic)
- ✓ First Iberian hybrid parks (solar + wind) – EDP Renewables in Sabugal
- ✓ Largest European floating solar project in a reservoir (12.000 floating solar panels in Alqueva)
- ✓ Innovative projects in wave/tidal (WaveRoller in Peniche; Wave Centre in Pico Island of Azores)
- ✓ Re-using coal plants for the green hydrogen (€150M to adapt the former Sines' coal-fired plant as a 100 MW hydrogen production hub)

# Innovative ecosystem in the Health industry sector (Pharma & biotech, Medical Devices and E-health)

## Health industry exports more than 50% of its production

[AICEP, [Health industry Report](#) 2024]

[<sup>1</sup> Compound annual growth rate 2017-2021]

- ✓ Portugal was 5th/82 countries in the number of health researchers per million inhabitants (2022)
- ✓ The pharma & biotech industry is growing at a fast pace (7% turnover CAGR1)
- ✓ While medical devices subsector has the largest number of companies, pharma & biotech subsector surpasses in turnover and GVA
- ✓ Sector exported €2.5bn of health products in 2022, with a growth rate of 16.6% since 2018 (CAGR)
